USER
GUIDE

NOVA PLEX

PREMIUM BOND LINKING SYSTEM

FOR USE WITH NOVACOLOR AND LIGHTENING PROCESSES

STEP 01

Mix Novacolor or Powder Lightener with Novoxyl/Novacreme thoroughly before adding Novaplex Bond Construct 1 as per the guide below

STEP 02

Apply colour to hair as desired and process using regular colour directions

STEP 03

Rinse colour from the hair and towel dry. Do not shampoo. If colouring is complete go to step 4

Toning after colouring:

lightly shampoo (only after using powder lightener), apply toner (with or without Novaplex Bond Construct 1), process and rinse. Do not shampoo.

Go to step 4

Novasemi after lightening:

apply Novasemi (without Novaplex), process and rinse. Do not shampoo.

Go to step 4

STEP 04

Apply Novaplex Bond Restore 2 and process for a minimum of 10 minutes, then rinse

STEP 05

Shampoo and Condition with De Lorenzo's Defence Thermal range, dry and style as desired.
